Adjourn

*Thank you!*

# Notes and Discussion Worksheet

*This worksheet is provided for note taking during the presentation and discussion. As you are listening to the presentation and reviewing the posters, what stands out as important for our community?*

*Considering the data available and your own knowledge and experiences...*

- What problem or need related to our community's health stands out as important?*
- If we focus on a particular health need or problem, what should happen? What do you hope will be better in Riley County five years from now?*

Topic	Possible Riley County Health Priority
<b>What do our communities look like?</b>	
Demographics- Population Distribution	
Socioeconomics- Income Data and Education	
<b>What did people say was important in the community needs survey? What are my own perceptions and experiences in these areas?</b>	
Overview	
Quality of Life	
Physical Health	
Mental Health	
Social Issues	
Children and Youth	
Education	
Aging	
Housing	

Topic	Possible Riley County Health Priority
Transportation	
Infrastructure	
Economics & Personal Finance	
<b>What was identified as important in the public health systems assessment?</b>	
Local Public Health Systems Assessment	
<b>What does our health data say about us? What are we doing well? What needs to get better?</b>	
Causes of Death  Leading Health Indicators	
<b>Anything else?</b>	
My Personal Experience and Observations	

### Discussion: What are the Top Health Priorities?

- What are two or three things that we could focus on to make Riley County a place where people live long and healthy lives?
- What can everyone get behind and work together to improve in the next 3 to 5 years?

Identify top health priorities as a small group	
Health Priority	What specifically do want to see in the next 3-5 years? How should things improve for a healthier Riley Co?
